

# Your Model of Perception Quiz

You will arrive at all of the answers below because of how you perceive the world, not particularly because any of them are true or not. Ratings are below.

## 1. Check the statements you take for granted...

- a. There are nine planets in our solar system and that's all there ever was and ever will be.
  - b. The food you eat nourishes your body.
  - c. Heaven is "up there".
  - d. Death is the end of life.
  - e. There are billions of galaxies besides the one we're in.
  - f. Childbirth is physically painful.
  - g. God hasn't spoken to anyone since the Bible, the Koran or any other historic holy book.
  - h. What you think makes a difference in the way your life turns out.
  - i. Everything has a reason.
  - j. Nothing has a reason.
- 

## 2. Check the statements that you think could never happen...

- a. Someone without a physical brain could be considered above average in intelligence.
  - b. Your body would respond to your thoughts.
  - c. Someone could be clinically dead for 30 minutes and revive to tell doctors what they said about him in the operating room.
  - d. Two mentally challenged people could give birth to a genius.
  - e. All transportation comes on time when you're late.
  - f. You could understand calculus.
  - g. You could speak French fluently.
  - h. You could have all the money you need forever.
  - i. Intelligent life exists on other planets outside our galaxy.
- 

## 3. What do you find mysterious about the world?

- a. The opposite sex (or same sex if you're so inclined)
- b. Love
- c. Your family
- d. Death
- e. Why really dumb movies become wildly popular ones.
- f. Dreams while you are sleeping
- g. Other: \_\_\_\_\_

1. If you have more than 4 checks, you need to ask more questions!
2. If you have more than 4 checks, you have outcomes hardwired into your head and you're not totally sure where they came from!
3. The more checks the better...worth pondering at least!
